## INTRODUCING THE NEW DENTURE WEARER PACKAGE

In response to many requests by first-time denture wearers, we are pleased to offer this valuable service to Piedmont Dental Centers' patients - the **NEW DENTURE WEARER PACKAGE**.

Following extraction of teeth, it is quite common for the gum tissue to change and shrink during the normal healing process. Most people want a temporary (**Immediate**) denture for the sake of appearance immediately following extractions. Of course, the changes in the gum tissue during the months following extractions often leave space for the **Immediate Denture** to move freely and become uncomfortable. The solution to relieving the discomfort is to return to the clinic and have your dentist determine the best course of action to improve the fit of the **Immediate Denture**. Within 6-12 months, when your gums stop shrinking, your dentist will be able to replace your **Immediate Denture** with your **Second Denture**.

The services offered in the **NEW DENTURE WEARER PACKAGE** are available at a significantly lower cost for the patient. You will save over **\$205\*** depending on the style of denture you choose and the after-care treatment plan recommended by your dentist. **More importantly, for one package payment, you will be assured of receiving all the services necessary to help you adjust to wearing dentures for the first time.**

The **NEW DENTURE WEARER PACKAGE** has been prepared just for our new denture wearers at Piedmont Dental Centers.

\*Savings based on a full set of dentures. Actual savings realized will vary according to the services recommended by the dentist.
